Objective: The primary objective of the Health Awareness & Blood Grouping Programme was to educate students and staff about the importance of health awareness and the significance of knowing one's blood group. The programme aimed to raise awareness about various health issues and the importance of regular health check-ups.

Description: The event took place on January 5, 2024, in the college auditorium, Under Women Empowerment Cell with the participation of students, faculty, and health professionals. The programme consisted of the following components:

->Health Awareness Seminar:A seminar was conducted by a renowned health expert Dr Tahseen who discussed various health issues prevalent among youth, including nutrition, mental health, and the importance of physical fitness.

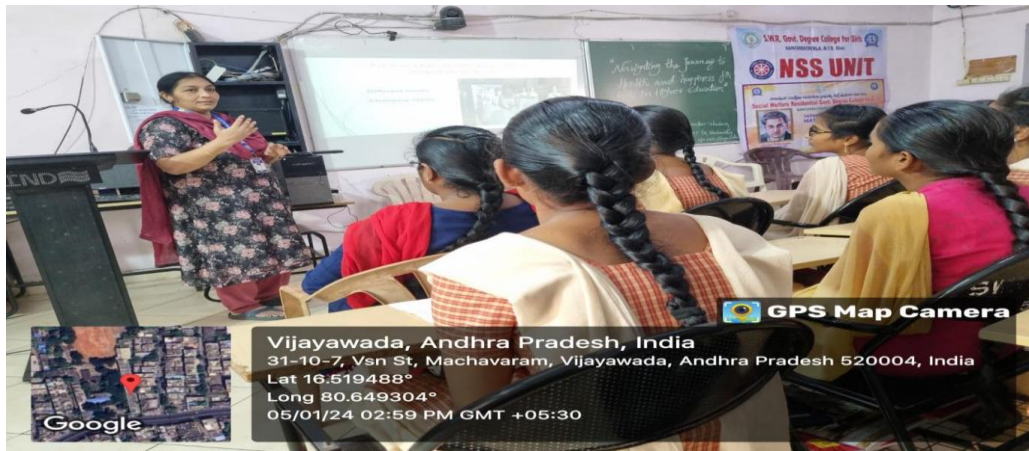

->Interactive sessions included Q&A segments where participants could inquire about health-related concerns.

->Blood Grouping Camp:A blood grouping camp was organized in collaboration with a local hospital, where trained medical staff conducted blood tests for students and staff to determine their blood groups.

->Participants received their blood group information along with a brochure detailing the significance of blood types and compatibility.

->Voluntary Blood Donation Drive:The event culminated in a voluntary blood donation drive, encouraging participants to donate blood and contribute to the community's health resources. Informational pamphlets on the benefits of blood donation and guidelines for donors were distributed.

Outcome : In conclusion, the Health Awareness & Blood Grouping Programme at SWRGDC [G], Kanchikacherla, successfully met its objectives and fostered a culture of health awareness among students and staff.
